Occupational Health and Safety

Our Mission:

"The purpose of this organization is to assure that insofar as possible every working person within this state shall have safe and healthful working conditions free from recognized hazards and to preserve our state's human resources: that the prevention of accidents and occupational diseases and abiding by rules and regulations are the responsibility of both the employer and the employee; and to help and assist employers and employees in accident and occupational disease prevention through educational means, which shall be made available to all industries, businesses, employees, employee groups and associations."
